

+-----+

| User Interface | <-- [HTML, CSS, JavaScript,  
React.js]

| (User Sends Input) |

+-----+

|

v

+-----+

| Prompt Formatting Module | <-- [Python]

|-----|

| - Text for lossless conversion |

| - Text for abridged summarization |

| - Code for simplification |

+-----+

|

v

+-----+

| Prompt Optimization Engine |

|-----|

| - Lemmatized Text (Slow + Detailed) |

| - Aggressive Summary (Fast + Concise) |

| - Optimized Code |

+-----+

|

v

+-----+

| AI & NLP Integration |

|-----|

| - spaCy (NLP Functionalities) |

| - Custom Algorithm |

| - LangChain |

| - OpenAI API |

+-----+

|

v

+-----+

| Feedback Loop & Performance Tracking |

|-----|

| - Monitor Token Efficiency |

| - Improve Response Quality |

| - Continuous System Optimization |
